Work Experience

Software Developer Intern – AIMSR July 2024 - October 2024

•Developed and tested modules for a Hospital Management and Electronic Health Record (EHR) System to streamline healthcare operations.
•Implemented features for patient registration, doctor consultations, digital prescriptions, and role-based access control using web development technologies.
•Collaborated with the development team to debug issues, improve secure patient data management, and reduce manual errors in healthcare workflows.

AI Intern – Yhills March 2024 - May 2024

•Developed a Machine Learning-based Music Recommendation System using TF-IDF and cosine similarity to recommend songs based on audio feature similarity.
•Performed data preprocessing, feature extraction, and exploratory data analysis using Python, Pandas, and NumPy to prepare music datasets for recommendation.
•Implemented and evaluated recommendation pipelines to identify similar songs and deliver personalized music recommendations.

Projects

Support Ticket System GitHub | Live

•Developed a full-stack support ticket management system using React, REST APIs, and MySQL to streamline customer support operations.
•Implemented JWT authentication and role-based access control to provide secure access for customers and support agents.
•Built features for ticket creation, assignment, status updates, and ticket management.
•Integrated frontend and backend components to support efficient communication and ticket tracking.

Milk Manager GitHub | Live

• Developed a full-stack dairy management application using React, FastAPI, and PostgreSQL to manage customers, daily milk deliveries, and extra quantities.
• Implemented payment tracking, outstanding balance calculation, and bill generation to simplify dairy billing and reduce manual errors.
• Integrated REST APIs, JWT authentication, and SQLAlchemy for secure access and efficient database operations..

Skills

Programming Languages	Programming Languages: Python, C, JavaScript, SQL, HTML, CSS.
Frameworks	React JS, Flask, FastAPI.
Databases	MySQL, PostgreSQL, SQLite, Supabase.
Concepts	AI, ML, Gen AI, NLP, OOPS, DBMS, OS, Web Dev.

Education

2022 - 2026 B.Tech CSE, The Apollo University, AP | CGPA: 9.32/10
2020 - 2022 Intermediate (MPC), VIT Junior College, AP | Percentage: 97.3%
